Design and structure
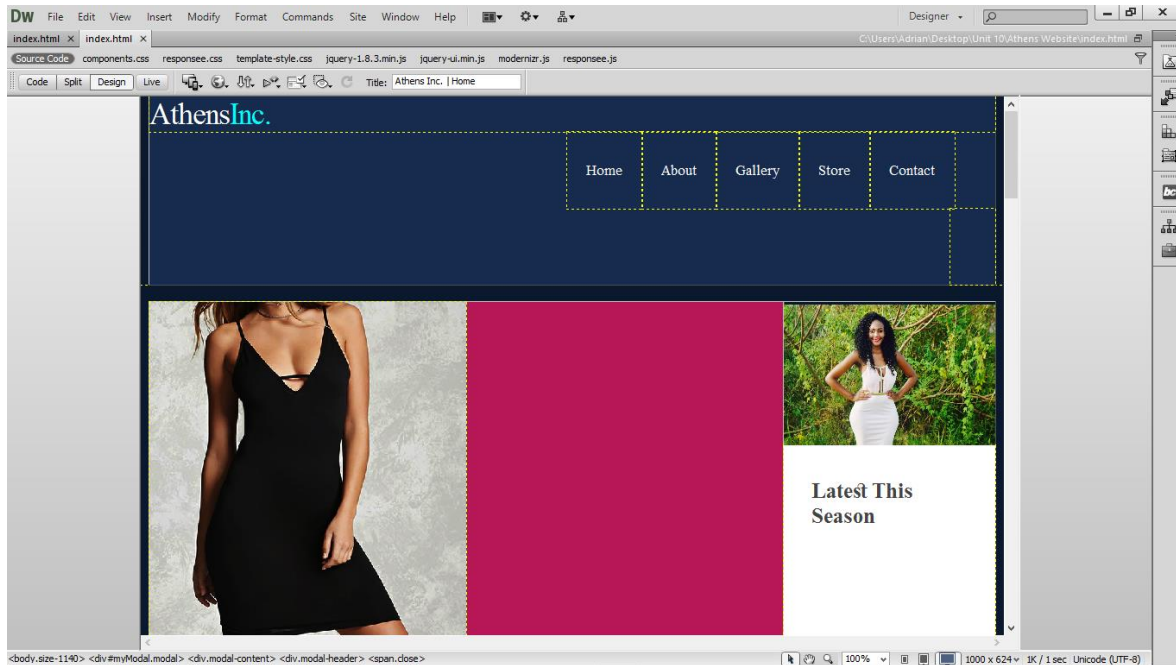

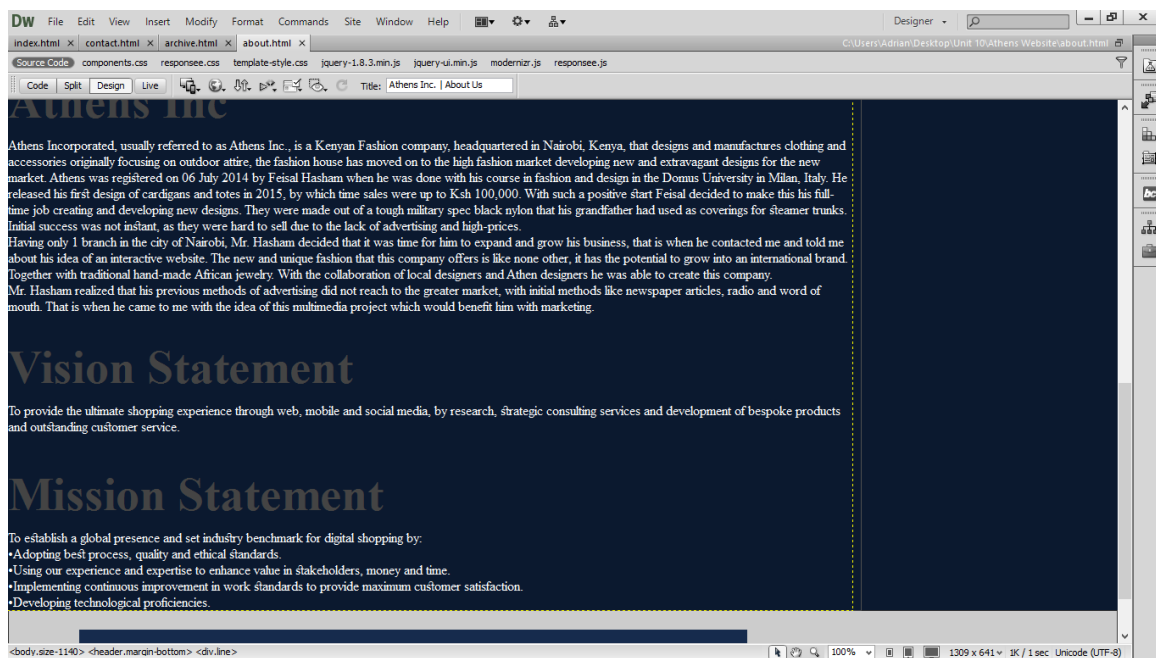

Home page

I produced the product in Adobe Dreamweaver. A screenshot of the home page in the early stages.

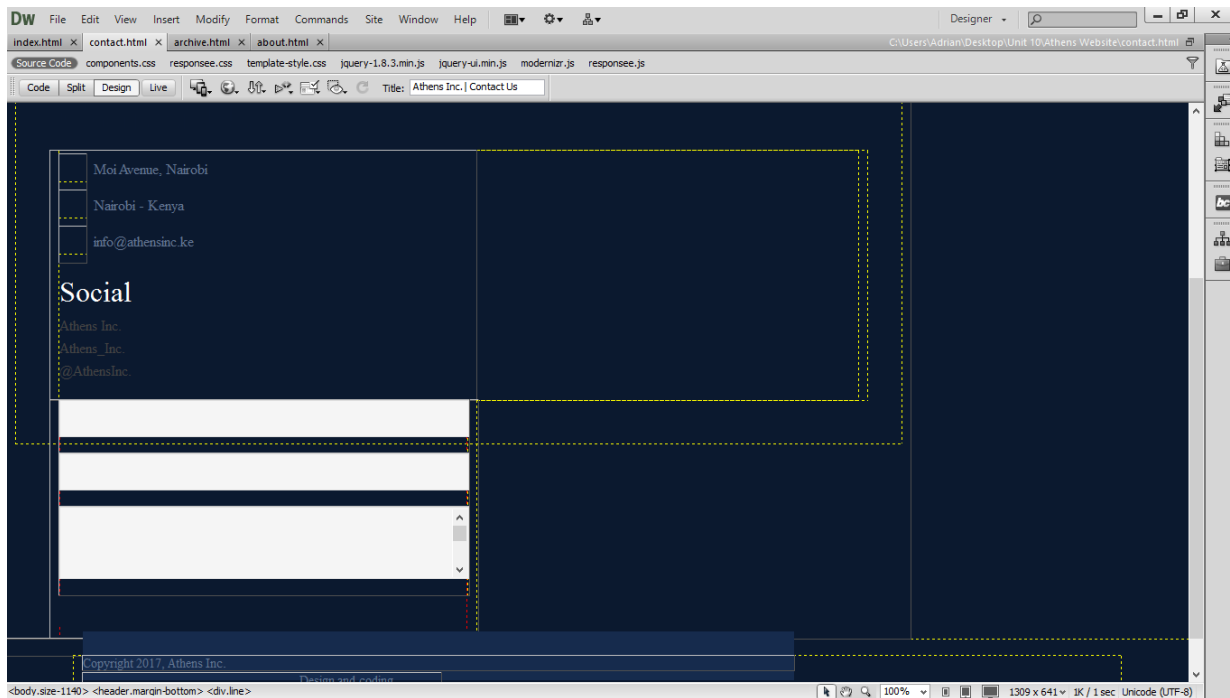

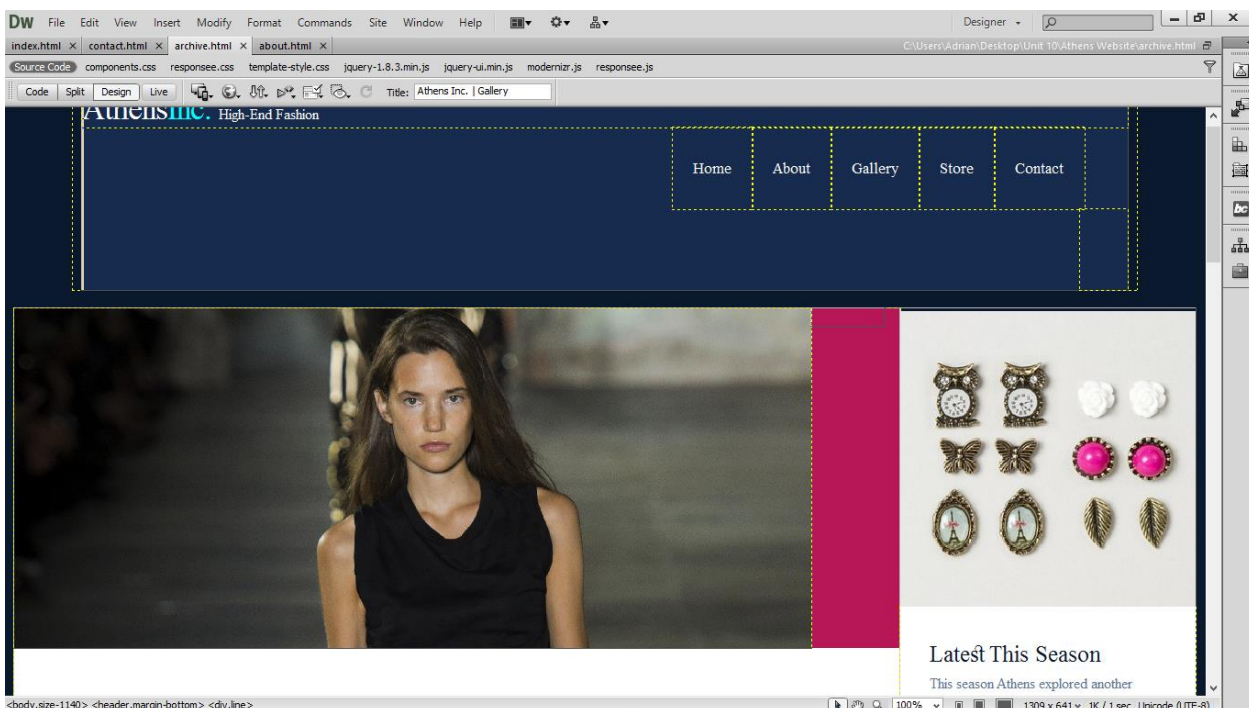

About us

contact page

the contact page with the feedback section and the customer information sections. Here the customer is able to communicate with the company.

gallery page

on this page, the customer is able to view what the company has in stock and make their purchase.

Store page

Here is where the customer will carry-on with their purchase from either the gallery page or from the homepage.
